What to do with Leftover LATEX paint?

1. REDUCE:

Buy Only the Paint You Need

That way, you reduce the chance of having any paint left over in the first place.

2. Store Paint So It Lasts for Years

Just cover the opening with plastic wrap and replace the lid.

Then, store the paint can UPSIDE DOWN!

3. REUSE:

Use Up All Your Paint

Now that you know how to keep your leftover paint fresh for years, don't forget about it. Use it up!

4. As a Last Resort . . .Dispose of Paint Properly

If the latex paint has already solidified in a closed can, you can dispose of it in your normal trash.

If the paint is still a liquid, you will need to dry the paint.
